

surgicalholdings

are offering something for nothing

GS12D matrix laser marking

at no extra cost

what's the benefit?

GS12D matrix ensures reliable tracking and traceability of instrumentation

GS12D matrix can be linked into your own instrument tracking system

GS12D matrix allows you decide what you want encoded, department information for example, when you place your order

GS12D matrix can be scaled down to fit the tiniest micro instrument, with commercial applications as small as 300 micrometres

GS12D matrix can encode fifty characters in a symbol that is readable at 2 or 3 mm

and it's free!

(on new instruments and repairs)
