

A UNIQUE OFFER FOR STERILE SERVICES AND DECONTAMINATION PROFESSIONALS

TRAINING ACADEMY

surgicalholdings

UK MANUFACTURER AND REPAIRER OF SURGICAL INSTRUMENTS

the non-credit distance learning*

Reusable Invasive Surgical Instrument Module

in partnership with **Anglia Ruskin University**

the objectives

-  Raise national and international awareness of decontamination technicians' roles
-  Acknowledge contribution to control and prevention of HAI
-  Improve career progression, staff retention and job satisfaction (Modernising Scientific Careers)
-  Contribute to the voluntary register of decontamination professionals
-  Professional recognition for Decontamination and Sterile Services staff
-  The module is 100% online, distance learning and allows for work commitments - students can study anywhere they have internet access. Students need to allow 4-6 hours per week and can fit it around work/home life. The course can be accessed part-time, and the non-credit has a printable certificate on completion.

We will be holding regular seminars, with special guest speakers, which will earn you CPR credits.

Details of the first seminar:

Surgical Instruments and the modern challenging Sterile Services environment

will be released soon, so please register your interest at
