

# Gimme 5!

## Free Rigid Endoscope Inspection Service

As vital attention is diverted to caring for patients suffering with Covid-19, we are offering the opportunity to send in temporarily redundant rigid scopes for free appraisal.

In times when it is *physically* not possible...we invite you to 'Give us 5'

- 1) Send in 5 Rigid Endoscopes
- 2) Receive a free diagnostic report
- 3) No obligation quotation
- 4) Access to our Surgifix System
- 5) Register for free scope webinar

## Testing Times

Why not include 10 light leads and we will also test these for you and provide a performance rating?

Before refibre

After refibre

## Endoscope Re-fibre

We manufacture their own fibre bundles in house. Covering small and larger diameter scopes and only use high quality German fibre optic material and stainless steel tubing

**Rigid Endoscope, Surgical Instrument & Stryker Power Tool repairs**  
carried out in our Southend-on-Sea repair workshop
