

Approved supplier and repairer of Fehling instruments

Fehling spinal surgery instruments now available direct in the UK

Precision-engineered for spinal procedures, Fehling's range includes Kerrisons, rongeurs, retractors and micro instruments. Designed for control, durability and ergonomic handling, meeting the demands of spinal surgery.

Manufactured in Germany, Fehling combines over 30 years of expertise with continuous innovation. Surgical Holdings are proud to distribute Fehling in the UK and our highly skilled technicians are trained to maintain and repair these instruments, helping to prolong their lifespan.
