

Carbon Reduction Plan

Supplier name:Surgical Holdings.....

Publication date:01/04/2025.....

Commitment to achieving Net Zero

Surgical Holdings is committed to achieving Net Zero emissions by 20**40**.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022	
Additional Details relating to the Baseline Emissions calculations.	
<i>Baseline year was produced using limited data for scope 3 upstream/downstream transport & distribution</i>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	36
Scope 2	27.4
Scope 3 Category 4 & 9 combined: Upstream Transport and Distribution Category 5: Waste Generated	258

MANUFACTURERS & REPAIRERS OF SURGICAL INSTRUMENTS

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 200 tCO₂e by 2030.

This is a reduction of approximately 6% per year

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or baseline. The carbon emission reduction achieved by these implemented since the 2022 schemes equate to 5 tCO₂e, a 19%ge reduction against the 2022 baseline and the measures will be in effect when performing the contract.

We have completed installation of LED lighting and in March 2024, completed installation of solar panel across all of our manufacturing sites. In the future we hope to implement further measures such as: Further solar panel roll out

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.
