Rigid Endoscope Solutions
Service and Repair | Supply | Light Leads
This booklet has been compiled to help theatres and sterile services manage and care for optics products in a cost effective way, to ensure your patient receives the highest level of care and surgery.

Surgical Holdings’ repair workshop is based in Southend on Sea, close to London and 5 minutes from Southend Airport. We are accredited to ISO 13485.

If you have any questions about the issues raised in this booklet, please contact your Surgical Holdings representative for more information on +44 (0)1702 602050.
Managed Service

Surgical Holdings can set up and manage a ‘check and repair’ service for rigid endoscopes. This ensures scopes are regularly checked, refurbished, repaired and maintained to a high standard. We will catalogue your scopes and create a maintenance schedule for you.

Quality components, globally sourced:

- Medical grade stainless steel tubing
- German-engineered new glass fibre
- New fibre cone as standard
- New solderable sapphire distal window
- New light post colour ring
- New objective in 95% of cases
- Replacement ‘O’ ring to prevent leakage

Endoscope Repair

All major brands of rigid endoscope can be repaired at Surgical Holdings’ workshop in Southend-on-Sea. Using the latest optical technology, Surgical Holdings’ highly skilled and experienced technicians will return scopes to the manufacturer’s original specification. All parts are brand new and have full traceability.

ISO 13485 accredited

As recommended by MHRA; Advice around Endoscope Storage and Care

Baskets and Trays

Fixate and organise scopes and accessories to reduce breakages

Traditional instrument trays are jumbled and breakages can occur during transportation and processing. Our trays ensure scopes, light leads and accessories are fixated to ensure they remain secure, and cleaning can be optimised.

- Strips of silicone type material and supportive bars can be used to hold items in place and enable effective cleaning.
- Baskets themselves are wiremesh, which allows water and chemicals to reach the equipment.

Custom baskets are manufactured in house to your specification.

New Endoscopes

High quality range of Rigid Endoscopes manufactured in Germany.

- Fully compatible with all major manufacturers
- Wide choice of scopes available in various lengths and diameters
- Covering all popular areas including Laparoscopic, ENT, Arthroscopy, Hysteroscopy, Cytoscopy and Urology Scopes
- Available in High Definition and 4K for amazing clarity during surgery
- Complementing Laparoscopic Instrument Range available through Surgical Holdings
